COMMENTS

- Systemic protective action of tebuconazole combined with protectant chlorothalonil gives good performance disease control (see results below)
- Low cost mixer product alternative to straight chlorothalonil & Cherokee
- Use on own at T0 & in mixes at T1 – rates 1.5-3.0 l/ha
- Better value for farmer than using own mixture
- Lower active ingredient formulation removes need for very toxic ('skull & crossbones') hazard symbol
